

Target Audience

Care and Support staff in a variety of settings, and Housing and Housing Support Teams who are providing direct care and support.

In the workplace there are Health and Safety Risk Assessments which need to be in place to minimise any harm that could occur from hazards associated within the workplace.

This course will support learners to be able to understand, implement and contribute to the risk assessments that are in place or need to be in place when a new hazard or change to a current risk has been identified.

This course is delivered using a range of methods and resources including:

- ◆ Live tutor facilitation, questionnaires, interactive polls, scenarios for breakout groups, questioning and participation and an end of session assessment.

This course has been developed and mapped to current occupational standards, qualification frameworks and the following documents and resources:

- ◆ The Care Certificate – Standard 13
- ◆ HSE – Managing risks and risk assessment at work
- ◆ HSE – Risk assessment during the coronavirus (COVID-19) pandemic

Course Content

- ◆ Legislation
- ◆ Identifying hazards
- ◆ Assessing the risks
- ◆ Controlling the risks
- ◆ Recording findings
- ◆ Reviewing controls

Learning Outcomes

After attending this course, learners will be able to:

- ◆ List legislation for risk assessing
- ◆ Identify hazards within own workplace
- ◆ State how to assess risks
- ◆ List measures that can be taken to control risks
- ◆ Explain how to record findings
- ◆ Describe how to review controls in place

Duration: 3 Hours
